

For Young Professionals at INTER-NOISE 2018

For more information: <https://internoise2018.org/students-young-professionals.php>

Young professionals are students and people who are early in their careers (<10 years from graduation)

Goals of the Young Professionals Program

- Provide professional mentoring opportunities
- Learn from noise control case studies presented by world renowned experts
- Facilitate informal discussions between young professionals and I-INCE leaders and senior noise control engineers
- Give young professionals the opportunity to make new friends and connect with other friends who are part of the worldwide noise control community
